Outdoor furniture category

Description

The Croma Concrete Bench System is a versatile outdoor furniture system. It consists of 5 basic modules which can be combined in many different ways depending on the available space.

Key advantages of the Fibrofor High Grade Solution

- No early shrinkage cracks and high durability,
- Protection of the sensitive edges thanks to 3-dimentional reinforcement
- Any surface treatments possible, even polishing (fibers not sticking out)
- Fibers invisible at the surface
- Ornamental patterns possible
