

Besiktas Stadium, Istanbul (TR)

Application: floors and slabs
Customer: Besiktas
Object: Besiktas Stadium
Size: 90 000 m²
Country: Turkey
Year: 2014/15
Fibre: Fibrofor High Grade

Description

A completely new stadium is built in Istanbul. But the progress of construction work was behind time schedule. A solution to save time and cost has been highly appreciated.

Key advantages of the Fibrofor High Grade Solution

- Massive time savings (construction time)
- Lower cost for reinforcement (replacement of steel)
- Reduced laborcost (no/less installationtime for steel)
- All kind of surface treatment possible (also coating)
- Improved shrinkage characteristics of concrete
